

# Westwood Junior High School

## Enrichment Program

### What is Matrix?

The Matrix Program is an academically challenging, fun and technologically enhanced way of learning in the classroom. The program places an emphasis on students receiving the highest level of academics possible. The program is enriched through projects, assignments and technology in the student's learning.

We believe the learning should go on both inside and outside the classroom, as well. Field trips and out of school activities play a big role. Past trips include Quebec City, Ottawa, Boston, New York, Washington, camp in the Laurentians and theaters among others.

Students must perform community service along with being active in school life. They are expected to be leaders and role models in the school.

Students use personal laptops inside and outside the classroom to enhance their learning. Teachers are trained in using technology in the classroom in order to let our students learn and create using 21st Century tools.

### Entrance Exam

#### Grade 6

Saturday November 4th, 2017  
8:15 – 11:15am

#### Grade 5

Friday May 11<sup>th</sup>, 2018

### Why Matrix?

#### **Challenging curriculum!**

**Experienced Subject Teachers** (in curriculum and in using technology for learning)

**Classroom Environment.** Class of strong students who are able to work together and challenge each other.

**Technology.** Ability to have students create and play a strong role in their own personal learning.

**Learning outside the classroom.** Field trips, school life and community service.

**Schedule.** Westwood Junior finishes at 14:20. This allows for students the afternoon to participate in many extra-curricular activities whether through the school or outside.

**Future.** Past students have been very successful in different kinds of pathways after graduation.

**FUN!**

### How do I Apply?

Application forms are available on our school website  
[westwood.lbpsb.qc.ca](http://westwood.lbpsb.qc.ca)
